

Drivesys The Original Cobble Patented Driveway System

The timeless reclaimed stone-look ensures a grand entrance to period properties or modern homes

Drivesys, The Original Cobble, Canvas (CN), Banded Edges, Drivesett Argent, Light (LT).
Design and installation by Yorkshire Pro-Paving, Otley

- The Original Cobble has the 'Drivesys' contoured base to ensure a realistic antiqued cobbled look and possesses all the benefits of a carefully engineered driveway system
- Each pack contains a variety of sizes and profiles, which work well together ensuring every project enhances the property's character and charm
- Lay on a standard driveway sub-base of MOT Type 1 and sharp sand. See page 159 for more details

Marshalls recommends the patented Drivesys Driveway system is installed by Marshalls Register Installers

Drivesys, The Original Cobble, Basalt (B)

Basalt (B)

Iron Grey (IG)

Canvas (CN)

	Sizes mm (nominal)	No. item/pack	Weight (kg/pack)	Area (m ² /pack)	Colours	
Project Pack	215 x 130 x 60	80	670	5.46	B IG CN	see website
	165 x 130 x 60	40				
	130 x 130 x 60	40				
	185 x 130 x 60	40				
	145 x 130 x 60	40				
Ready mixed jointing	15kg	3			G	

Drivesys blocks come with a protective transportation seal which will remain slightly slippery underfoot until weathered. Once dissipated blocks may appear lighter in colour.

To complete every 'Drivesys' driveway, each pack is supplied with the right amount of ready mixed jointing compound, minimising fuss and number of deliveries.

For diagrams and important installation guidance, see page 159
